NZ Swimming Pools LTD

New Zealand Made Through & Through

MANUFACTURING

Our extremely highly finished pools are proudly handcrafted in Tauranga, NZ, in a specific temperature and humidity controlled fibreglass factory.

PREPARATION

Defect-free pool moulds which are finished to a high standard.

AQUAGUARD GELCOAT APPLICATION

Offering a range of colour choices, our high performance, durable gelcoats give a top quality finish.

EPOXY VINYL ESTER RESIN

This high performance resin provides strength and prevents water penetration to the gelcoat.

FOUR STRUCTURAL LAYER TECHNOLOGY

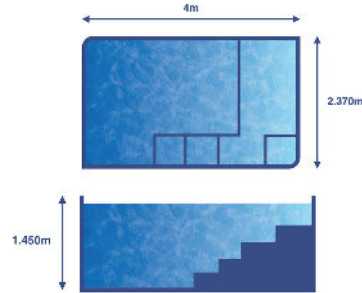

After making sure we have achieved the water barrier and sealed the gelcoat with the resin, we expertly apply four layers of Structural Fibreglass.

STRENGTHENING AND BRACING

Once the fourth layer of fibreglass has fully cured, we apply a rigid support structure with further fibreglass. We also enclose steps and seats with fibreglass so they are fully supported.
